This work is protected under copyright by Elsevier Science, and the following terms and conditions apply to its use:

Photocopying

Single photocopies of single chapters may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

Permissions may be sought directly from Elsevier Science via their homepage (<http://www.elsevier.com>) by selecting 'Customer support' and then 'Permissions'. Alternatively you can send an e-mail to: permissions@elsevier.com, or fax to: (+44) 1865 853333.

In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; phone: (+1) (978) 7508400, fax: (+1) (978) 7504744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; phone: (+44) 207 631 5555; fax: (+44) 207 631 5500. Other countries may have a local reprographic rights agency for payments.

Derivative Works

Tables of contents may be reproduced for internal circulation, but permission of Elsevier Science is required for external resale or distribution of such material. Permission of the Publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage

Permission of the Publisher is required to store or use electronically any material contained in this work, including any chapter or part of a chapter.

Except as outlined above, no part of this work may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.

Address permissions requests to: Elsevier Science Global Rights Department, at the fax and e-mail addresses noted above.

Notice

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

First edition 2002

British Library Cataloguing in Publication Data

Kulasiri, Don

Stochastic dynamics : modeling solute transport in porous media. - (North-Holland series in applied mathematics and mechanics ; 44)

1. Stochastic processes 2. Differentiable dynamical systems
3. Porous materials - Mathematical models 4. Solution (Chemistry) - Mathematical models

I. Title II. Verwoerd, Wynand
519.2'3

ISBN 0444511024

Library of Congress Cataloging in Publication Data

Kulasiri, Don.

Stochastic dynamics : modeling solute transport in porous media / Don Kulasiri and Wynand Verwoerd.

p. cm. -- (North-Holland series in applied mathematics and mechanics ; v. 44)
Includes bibliographical references and index.

ISBN 0-444-51102-4 (hb. : alk. paper)

1. Porous materials--Permeability--Mathematical models. 2. Transport theory--Mathematical models. 3. Fluid dynamics--Mathematical models. 4. Stochastic processes. I. Verwoerd, Wynand S. II. Title. III. Series.
